

7th Biennial

EWTS

Emerging Water Technology Symposium

May 12 - 13, 2020 | Westin Riverwalk Hotel, San Antonio, Texas

SAVE THE DATE - CALL FOR ABSTRACTS

Learn, Share, Collaborate

Keeping our water systems safe requires a keen understanding of the emerging technologies and best practices that are working to mitigate today's threats to water safety.

The EWTS provides a unique opportunity to meet well-known experts from across the globe. Participants are able to discover ideas and approaches about emerging technologies coming to market; learn about innovative green plumbing and mechanical concepts; view presentations; and engage in timely discussions on how the water utility, manufacturing, engineering and trade industries have found solutions through emerging technologies for the water efficiency, plumbing and mechanical industries.

We invite you to join us - Submit an abstract today!

The Emerging Water Technology Symposium Conveners are seeking presentations from experts on the following topical issues:

- **Water-Energy Nexus**
Pipe Sizing, Hot Water Design, Smart Metering Technologies
- **Educational and Behavioral Issues**
Waste Water / "Flushables," Showering and Bathing Safety Issues, Ramifications of Pricing
- **Water Efficiency in Buildings**
Share New Studies and Emerging Technologies
- **Water Quality Issues**
Solutions to the Unintended Consequences of Water Efficiency, Health Implications, Disinfection and Anti-stagnation Strategies, Pharmaceuticals in Water
- **Alternate Water Sources**
Share Your Expertise on Rainwater Catchment Systems, Gray Water Systems and the Delivery of Reclaimed / Recycled Water
- **3-D Modeling for Plumbing and Mechanical Applications**
Software Updates, BIM, 3D Designs for Sustainability
- **Other Topics Addressing Improved Levels of Sustainability and Safety in Water Distribution and Premise Plumbing**

presented in cooperation with:

industry partners:
